REFERENCE: AMENDED MARCH MONTHLY REPORT (02/01/2014 02/28/2014), RECEIVED 08/08/2014

ORRINPAC amended its March 2014 report and all subsequent reports after realizing the committee made an administrative oversight in failing to report 2 disbursements in the originally filed March 2014 report. Upon discovering this error, the committee immediately filed an amendment and reviewed all reports to ensure there were no additional oversights in disclosure.

This oversight resulted in the delayed reporting of only one disbursement to another federal committee, and the public record was amended prior to the primary election, for which the disbursement was made, so the public was not denied any relevant information prior to the August 12, 2014 primary.

The committee regrets this administrative oversight and has taken steps to ensure this error is not repeated.
